

Nelson s Encyclopaedia Volume 7

By Anonymous

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1907 edition. Excerpt: .14th centur it was over a foot high, and adorned with precious stones and gold and silver plates. After the reformation it fell into disuse, until resumed by the bishop of Lincoln (1885). Mitscherlich, Ernst (1794-1863), German chemist, was born near Jever in Oldenburg, and succeeded Klaproth in the chair of chemistry in Berlin (1821). Besides researches on the allotropic forms of sulphur, on the acids of manganese and selenium, and on benzene and its derivatives, he is perhaps most famous for his labours in crystallography and mineralogical chemistry; he discovered the principle of isomorphism, and methods of preparing minerals artificially. His chief book was Lehrbuch der Mineralogie (4th ed. 1840-8). See Life in German, by Rose (1864). Mittweida, town, Saxony, Germany. 12 m. by rail N.E. of Chemnitz, has cotton, woollen, and linen factories, engineering and furniture...
