Reviews

An extremely wonderful pdf with perfect and lucid information. Better then never, though i am quite late in start reading this one. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Subsequent choices are: 1. between dual-use and militarily unique technologies (both product and process); private and public ownership; 2. between competitive procurement and single 3. between sourcing; and 4. between reliance on domestic and interna-tional sources. The decision tree outlines some of the reasons for making each of these choices. For much of the military materiel required by the DoD, OTAs analysis suggests that for reasons of cost, total capacity, and potential for innovation, the path defined by chosing dual-use technolo-gies, private ownership, and competitive acquisi-tion is preferable to alternate paths. Nevertheless, in some cases other paths may be necessary because of unique military performance requirements or manufacturing processes (e. g. , for production of ammunition and nuclear submarines), or technology security (e. g. , for nuclear weapons). Photo credit: bckheeo7Sarrders Following the dual-use private competitive path would require a number of changes in current U. S.
