

## The Synthesis Revolution: New Thinking for a New Era of Prosperity

By Thomas A Rossman

Eudaimonia Publishing LLC, United States, 2012. Paperback. Book Condition: New. Nick Lu (illustrator). 203 x 133 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.As the first nation to be founded on a set of ideas, America has achieved a level of growth and success over the past two and a half centuries that is unprecedented in human history. From the very beginning, our Founding Fathers tireless efforts to lay the foundation for this immense prosperity were driven by an intensely passionate and highly productive debate over how we could, both individually and as a nation, improve the world around us, confront our challenges most effectively and provide a better life for our children and future generations. Over the past two and a half decades, however, America has become increasingly driven apart by ideological polarization, partisan divisions, and the influence of special interests. As a result, our current political dynamic, the way that we make critical decisions about the form and function of our governing institutions, has lost much of the focus on solving difficult problems and finding new forms of improvement that energized, unified and inspired the earlier debates. The Synthesis Revolution provides the framework to...
