### ***Reviews***

*This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.*

*(Juliet Mertz)*

## **WATER POLLUTION: MANY VIOLATIONS HAVE NOT RECEIVED APPROPRIATE ENFORCEMENT ATTENTION: Rced-96-23**

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 30 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO reviewed the Environmental Protection Agency's (EPA) progress in ensuring that facilities comply with federal pollutant discharge requirements, focusing on: (1) the frequency of facilities violations; (2) the limitations of EPA systems and the effects of these limitations; and (3) EPA plans to correct these facilities. GAO found that EPA: (1) compliance data for FY 1994 show that 1 in 6 of the nation's 7,053 major regulated facilities have significantly violated the discharge limits in their permits; (2) considers facilities to be in significant noncompliance of their discharge levels when discharged pollutants exceed permit limits by 20 percent or more in a 2- to 6-month period; (3) is unable to identify all of the facilities that violate their discharge limits because the criteria it uses to screen facilities have not remained consistent with the types of discharge limits used in permits; (4) has expanded its criteria for identifying cases of significant noncompliance and assigning priorities of enforcement action in order to identify major facilities that have violated discharge levels in the past; and (5) assessed penalties of about 25 million in 323 cases of Clean Water Act violations in 1994, and its studies indicate that very few penalties are assessed for significant violations of daily maximum discharge limits. This item ships from La Vergne, TN. Paperback.
